

# Taking a collaborative approach Runway Safety Scenario

Session 5

Martin Eran-Tasker  
Technical Director

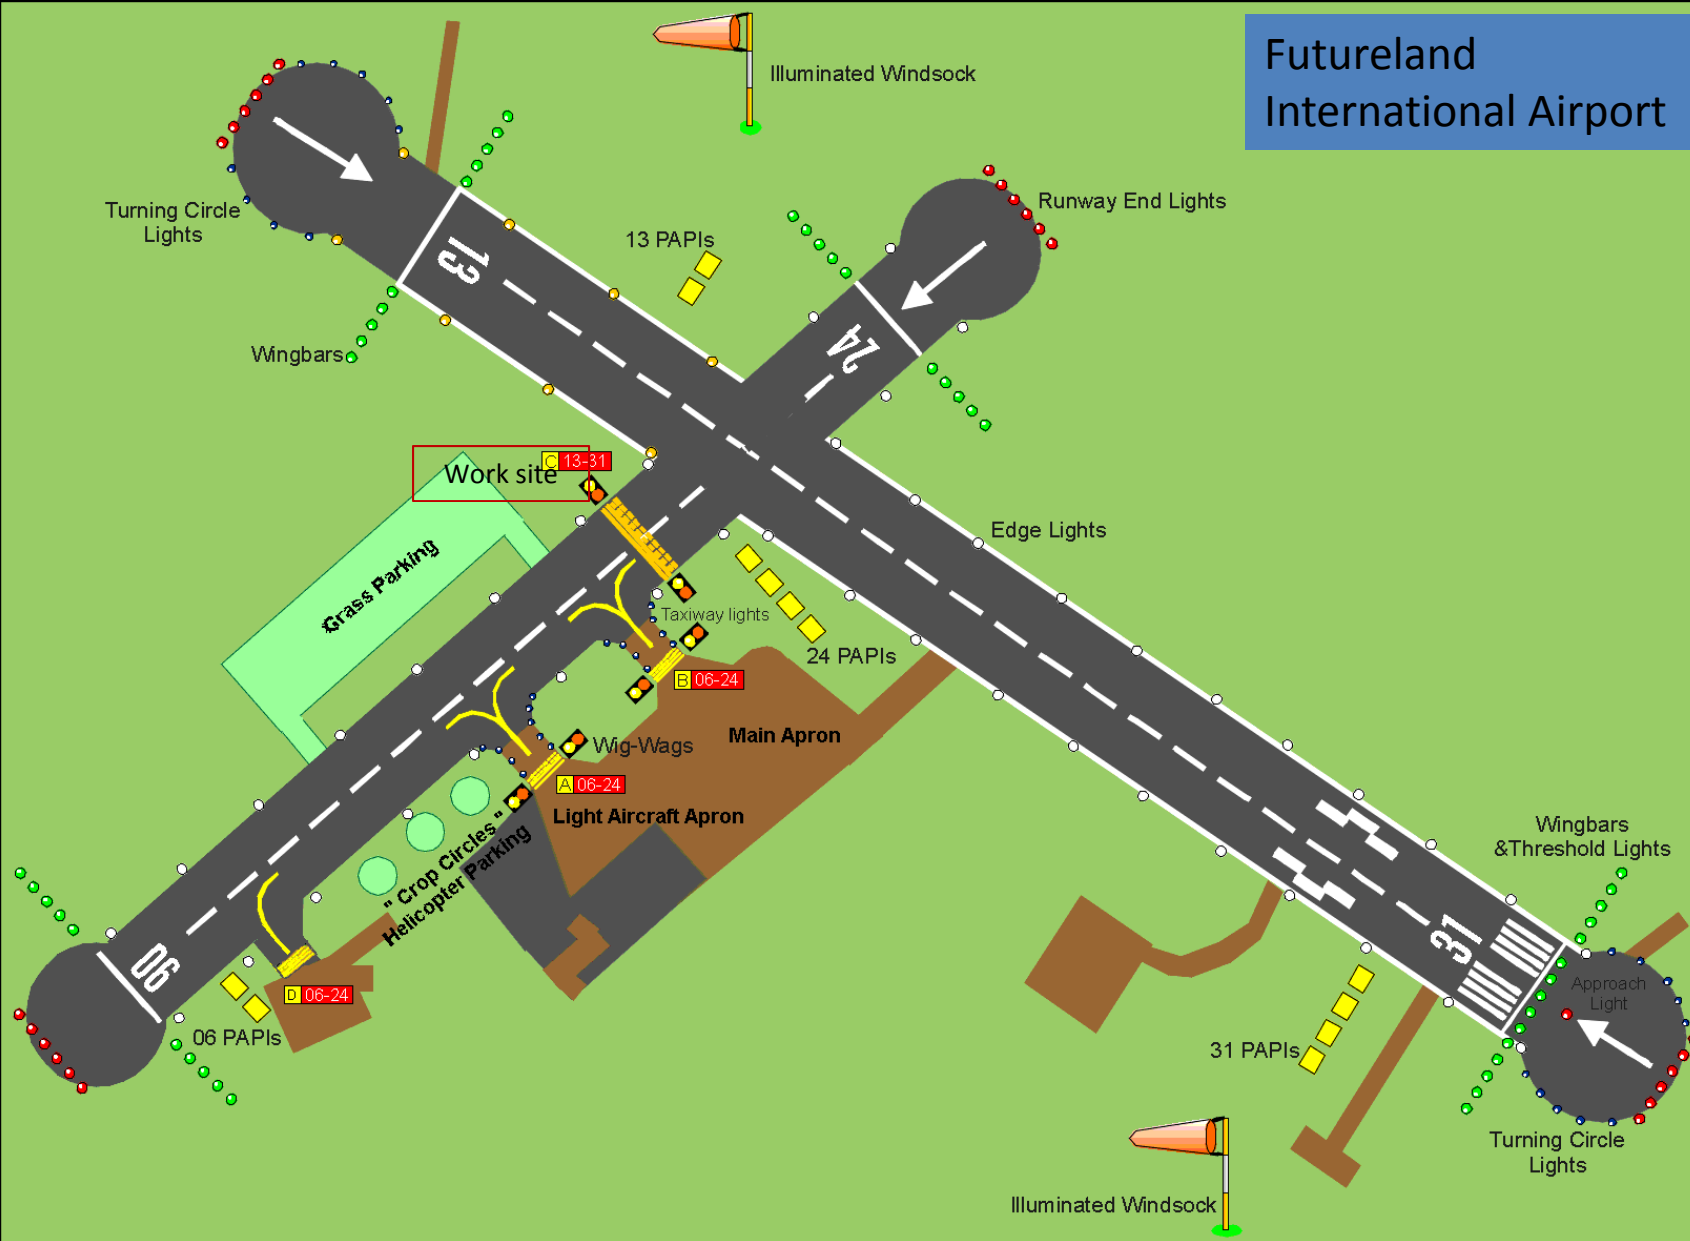

# Runway Safety Scenario

- Potential Safety Challenges:
  - Maintenance – Runway, ILS, Ground Radar, Lighting, Markings and Signs
  - Construction – Runway, Taxiway, Third parties
  - Information – AIP, Charts, NOTAMs
  - Wildlife Management
  - Weather reporting
  - Non Conformance to ICAO SARPS
  - etc
- What is the problem?
- Who is responsible/ accountable?
- Who will take action?

Runway Safety Scenario

Airport Construction

# Futureland International Airport

THANK YOU
