WINDHOEK AVIATION SECURITY & FAL TARGETS

OBJECTIVES

- Enhance aviation security and facilitation in Africa in a sustainable manner
- Coordinate and align all capacity-building efforts in the field of AVSEC and FAL

TARGETS

- 18 Aviation Security and Facilitation Targets

Priority Actions to expedite implementation of the Windhoek Targets for State to reach Global average EI of CE

- States develop National Action plans Windhoek AVSEC & FAL Targets;
- States improve their EI of CEs;
- States to resolve all existing SSeCs;
- State implement TRIP strategy;
- State rectify relevant aviation security international legal instrument

AFCAC continues to request States to provide updates on the status of implementation of these Targets. An electronic survey on the above was developed in order to collect data from member States and provide real-time analysis and summary of States' responses and individual results.
