Part 5 - Safety Management Systems

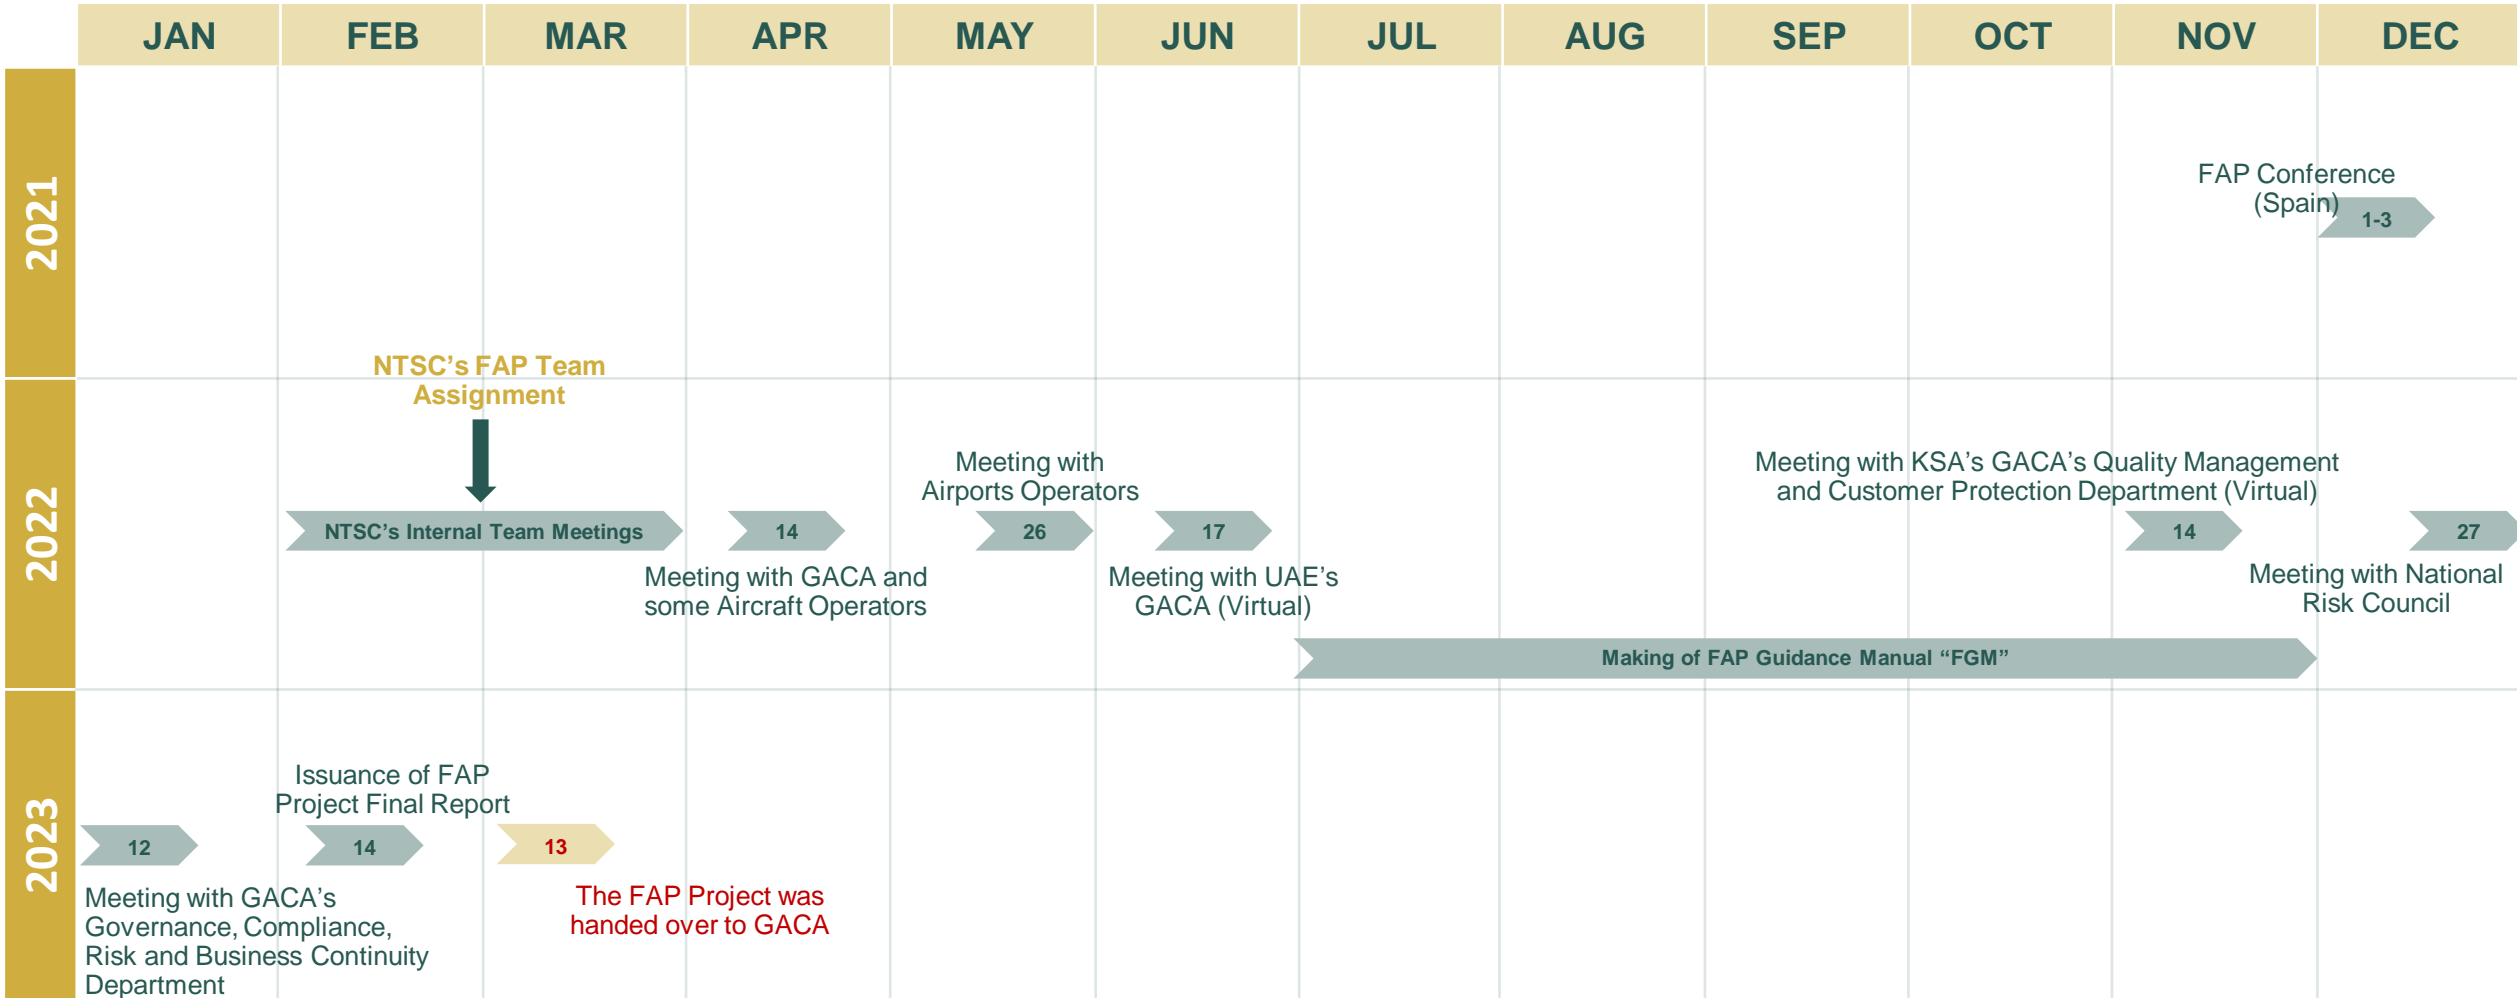

**The National Air Transport Facilitation Program**

# The Process of Providing Assistance and Support

# Overall Timeline

## Project Plan – Phase One: Preparation

- Team assignment
- Team members professional training.
- Defining requirements.
- Gap Analysis (Regulations & Manuals).
- Identify relevant parties.
- Preparing a draft of the FAP Manual.
- Determining time frame for completion.

### **Deliverables:**

- Draft FAP Manual.
- Developing a draft initial national implementation plan that includes identifying the participating parties and their responsibilities (who does what?).
- Determine a supervisory / coordinating body.

## Project Plan – Phase Two: Documentation

- Consider intersection with other relevant regulations and programs.
- Holding workshops for all parties (presenting the program and defining roles and tasks).
- Gap analysis (participating parties).
- Gap filling plan.
- Completion of FAP Manual.

### **Deliverables:**

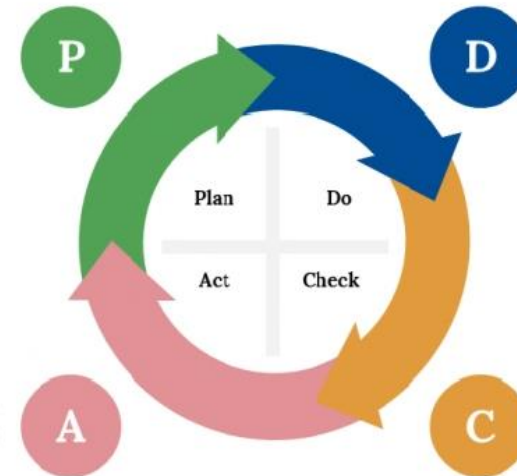

- Approved FAP Manual.
- Interested Parties Documents.
- Completion of the preparation of the national plan to implement the requirements.

## Project Plan – Phase Three: Implementation

- Involve all relevant parties in carrying out periodic Drills.
- Ensure that plans are ready for implementation and assessment.

### Deliverables:

- Drills.
- Continuous improvements.

Continuous Improvement

## Conclusion

- ✓ A final report was communicated to H.E. GACA President.
- ✓ Accordingly, GACA assumed FAP Phase 2 & 3 implementation.

THANK YOU
