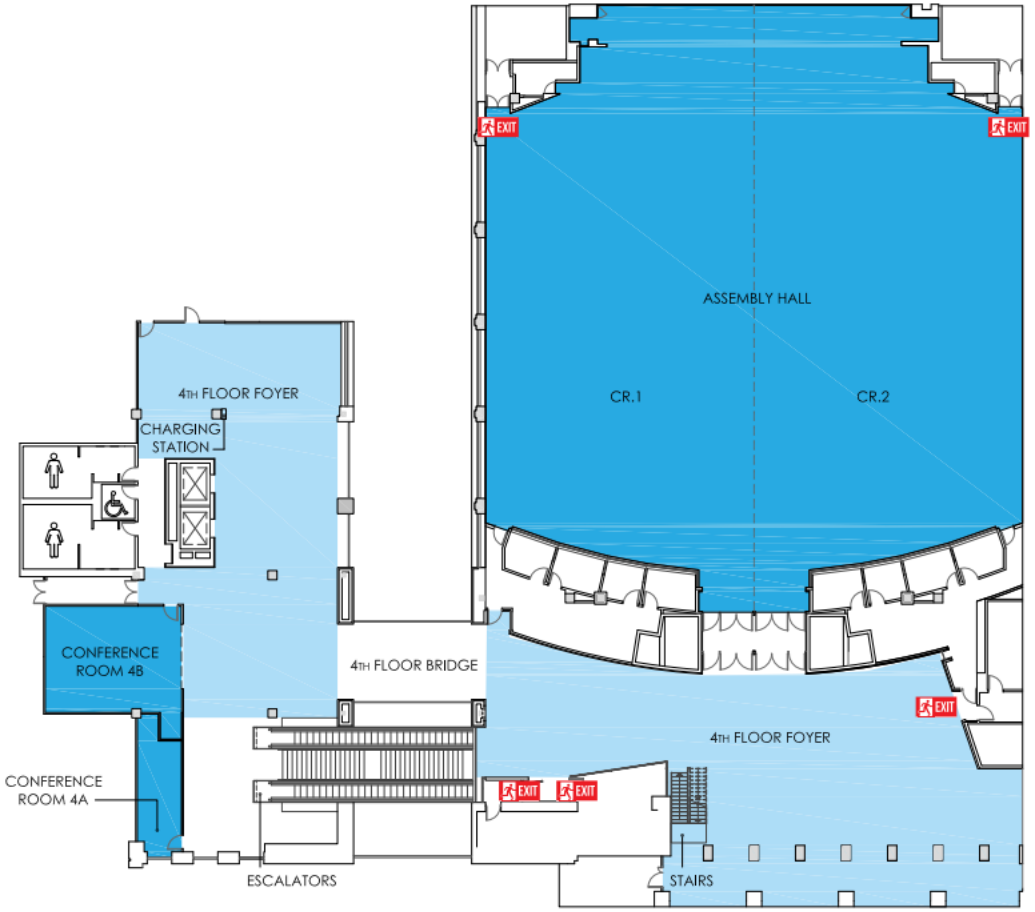
Administrative notes

Emergency procedures

In the very unlikely event of an emergency, I would like to identify to you the emergency exits of this conference room and foyer.

1. Two **emergency exits** are located at the back of the room on the right and left-hand side;
2. The main doors of the conference room can also be used to exit;
3. Once you have exited the conference room, one **emergency exit** is located a left-hand side of the Foyer (Saint-Antoine Street) and two **emergency exits** are located behind the glass doors of the Foyer;
4. Please familiarize yourself with the Evacuation Plan of the building located beside each exit door;
5. Use the stairwells for evacuation, not the elevators;
6. Evacuate the building immediately upon hearing the fire alarm;
7. Follow instruction from the fire wardens;
8. The meeting point is located at Square Victoria.

ICAO Conference Centre 4th Floor



Administrative notes

DRONE ENABLE

5 — 7 DECEMBER 2023

ICAO Headquarters, Montréal, Canada

ICAO Unmanned Aviation Fundamental course

A comprehensive 5-day course designed to empower participants to comprehend ICAO provisions, craft national regulations, and design oversight activities for unmanned aviation. With a focus on practical implementation, participants will gain the skills to execute oversight activities and develop effective communication strategies to disseminate crucial implementation processes.
