# CANSO Strategy

## CANSO Europe Strategy for the Future of Safety in ATM

### ➤ What does the Strategy do?

- It challenges the way we think about safety.
- Reinforces what we already do well.
- It should improve our knowledge of what makes us safe.

### ➤ What does it not do?

- It does not say how safety will be delivered in the operation.
- It is not the usual list of safety priorities.
- It is not a shopping list of technological changes, projects and initiatives.

# Key Themes

# CANSO Europe Safety Strategy

## Safety Intelligence

- Refining safety to include what went well as well as what went wrong
- Implementing a systemic approach
- Developing new ways of measuring everyday performance
- Embedding safety benefits in the design of new systems

## Tailored & Proportionate

- Ensuring actions and processes are proportionate to the risks
- Incorporating our SMS into our business processes
- Building SMS around a set of fundamental principles permitting many different ways of providing assurance

## People Create Safety

- Individuals taking personal responsibility for safety
- Developing a positive and supportive culture
- Raising the safety capability of staff & leaders
- Safety integrated into how we do business

## Challenging & Learning

- Learning and collaborating with others
- Creating a culture of challenge
- Ensuring a consistent understanding of risk across our stakeholders
- Ensuring rules make our services cheaper and safer

# Just Culture Toolbox

- CANSO is working with ATCEUC, ETF, IFATCA, IFATSEA and IFAIMA in a **Just Culture Toolbox**
- **Main goal:** support the implementation Just Culture and fostering a healthy open reporting culture, in order that aviation safety can be strengthened
- **Main sections:**
  - Principles and theory behind JC
  - Tools and Examples to develop a JC Policy for your organisation
  - Protection
  - Internal promotion, education and training
  - How to score JC in the organisation
  - Benchmarking: JC initiatives from other sectors

# Thank you!
