COCESNA

Common challenges faced by States in complying with Annex 13

INTERNATIONAL CIVIL AVIATION ORGANIZATION

- . Amendment to Aviation Act:
- Independency
- Faculties of Investigator
- Protection of investigation records
- Delegation of the investigation
- 2. AIG Regulation and Procedures
- 3. AIG Training
- 4. Implementation of Investigation Process

How have we addressed these challenges under GRIAA's configuration as an ICM?

But, How can an ICM contribute even more to States Investigation Process?

It is requested to ICAO:

- a) Take note and recognize the actions carried out by COCESNA/GRIAA as an ICM and with tangible results for COCESNA Member States.
- b) b) Identify possible alternatives to provide regional investigation organizations with the necessary faculties to assist States in dealing with accident investigations.
