Project objectives

- ✈ To build national capacity in accident and incident investigation
- ✈ To enable the establishment of mechanisms of cooperation
- ✈ To enable the adoption of a RAIO approach

Project structure

✈ Phase 1 - workshop sessions

- ✈ Session 1: Primary aviation legislation and regulation
- ✈ Session 2: Establishment of systems, processes, measures and means
- ✈ Session 3: Procedures
- ✈ Session 4: Training requirements
- ✈ Session 5 (extra): Revision of main topics

✈ Phase 2 – technical assistance missions (in situ)

Expected results

- ✈ Awareness of international requirements related to AIG in primary legislation, regulation, processes, measures, systems, means, procedures, and training
- ✈ Establishment/implementation of relevant requirements

Phase 2 Implementation
