6 October 2017

Tenth Edition of the ICAO *Aviation Security Manual* — Doc 8973 (Restricted)

1. The Tenth Edition of the ICAO *Aviation Security Manual* — Doc 8973 (Restricted) has been published in English, with all other ICAO language versions to follow, with a view to assisting States in the implementation of new and updated provisions introduced in Amendment 15 of Annex 17 – *Security*.
2. In light of the evolving threat to civil aviation, and the applicability of Amendment 15 on 3 August 2017, new and updated guidance material on areas such as the security of landside areas of airports, staff screening and vehicle screening, cyber threats to critical aviation information and communication technology systems, and cargo and mail have been incorporated in this version.
3. Other sets of guidance material developed since the last edition of the Manual have also been incorporated in this version and include, among others, in-flight supplies, security testing, security culture, impact assessment, and crisis management and response to acts of unlawful interference.
4. The *Aviation Security Manual* is accessible electronically to authorized users through the <https://drm.icao.int/> website. Any request for general information on ICAO publications, including the purchase of paper copies should be directed to the ICAO Sales and Customer Relationship Unit at sales@icao.int.
5. States are reminded that the *Aviation Security Manual* is classified as restricted, and its distribution is limited to State civil aviation authorities and, on request, other entities responsible for implementing aviation security measures, such as airport and aircraft operators, or other entities as validated by a State appropriate authority.

Issued under the authority of the Secretary General
